

How to explain the female orgasm.  
It's just water.  
Chase the water.  
And fear not when the water chases you.

When I orgasm I talk to God.  
Last night She told me I am water.  
And I am Her.  
And She is me.

Sexuality is not to be treated lightly.

Sex is prayer.  
And the orgasm is alms.  
It's funny how my God and your God believe two different things.  
Because I am Her.  
And She is me.  
And last night She told me I am water.

It's funny how my God and your God are mine and yours.  
As if we own them.  
What does your God tell you when you pray?  
Oh.  
Not to look this way?  
Well my God is me.  
And I am She.  
And She told me I am water.

If your God told you you are fire, that's okay.  
You can still look this way.  
Because I will still be water.

Because your God can tell you what you desire.  
That you are not He, nor She, nor They.  
That you are singular.  
Put on this Earth to be a purifier.

Your God can tell you not to think of Her when you come.  
But I still will.  
Because it's more fun.  
God has the best advice ad infinitum.  
And that's how you explain the female orgasm.
